

Guide for signing up for swim lessons:

The best and easiest way to register is to first establish a master account with us, if you don't already have one.

Go to bgclubmuskegon.gymmasteronline.com/login and create an account for YOU. Establish yourself with a guest pass --this is a "free" membership that qualifies you for all services and classes at the daily drop-in rate.

(You can also download the Gym Master Member Portal app. It's easy to navigate and you can book classes, pay your bill, and see the most up-to-date schedules. Available for Apple and Android operating systems.)

Once you set up your account, you can add a "Linked account" for your child. You'll sign them up for a Swim Lesson Membership at \$70. This will allow you access to 6 classes (including up to 1 make up class).

Next you'll look at the class schedule. Select your start date and class of choice. Enroll into the first day of the session, and if prompted, select "enroll in repeat classes".

At that point, you'll be ALL SET! Our front desk staff will ensure that your child is booked into all 6 sessions.

*If you miss a class, there will be make ups, but it is critical that you schedule your make-up lesson with the front desk! Failure to do so, could result in an instructor not being prepared for you.

Thank you for choosing swim lessons at the Neal Fitness Center Pool.
